GROUP III - The following products contain manganese dioxide and should not be cleaned with Muriatic Acid Cleaners (Hydrochloric Acid). Special Proprietary Cleaners such as Vanatrol in proper dilution are recommended in accordance with the Chemical Manufacturer's recommended cleaning practices.

Sonoma Valley, Napa Valley, Plum, Chelsea Ironspot, Welsford Ironspot, Brownstone, Canterbury, Cinnamon Ironspot,

Hearthside, Swiss Chalet, Royal Burgundy, Bordeaux Burgundy, Mesaba, (Savannah, Williamsburg or Charleston) Wellington, (Savannah, Williamsburg or Charleston) Hampton, Black Sand, Mocha, Cordovan, Brown (all Textures), Earth Blend, Frosty Brown, Buckskin, Burgundy Tudor, Charleston or Williamsburg Stratford, Charleston or Williamsburg Bradford, Williamsburg Misty Creek, Williamsburg Willow Creek, Williamsburg Westport, Williamsburg Sandhills Red, Williamsburg Smoky Mountain, Williamsburg Stone Ridge, and Williamsburg Wexford.

GROUP IV - NO CLEANING is recommended on these products. These product colors are compatible with regular mortar color and any cleaning solution will change the intended color.

Aztec White, Casablanca, Dover White, Pink Aztec, Antique White, Regular or Williamsburg Inca Gold and Savannah, Williamsburg or Charleston Birchwood, and Williamsburg Inca Gold.

For brick blends please contact the selling agent.

Brick using colored mortar should follow Group III recommendations.

If there are any questions about these cleaning recommendations please contact the selling Company. Please request an explanation of General Cleaning Methods if there is any question on how to proceed. The inclusion of Brand Names of Proprietary Products does not constitute endorsement. Remember to do a test section in an inconspicuous location prior to starting on main wall.

DISCLAIMERS

Improper Cleaning Procedures can produce undesirable and even harmful results on brick masonry. Sand Blasting is not a recommended Cleaning Method. Also, the wrong cleaning chemicals or chemical solutions can burn or stain masonry units and open mortar joints to water penetration causing premature deterioration of the brick masonry. Sioux City Brick & Tile Company disclaims any and all responsibility for damages resulting from improper cleaning methods and materials.
